# OVERVIEW: ABOUT THE COURSES OFFERED

The vision behind the courses offered by The Corporate House through Ms Garg is to “make the complex corporate law subjects” highly simplified and to deliver the courses in an organised manner.

In order to deliver business law subjects in a lucid manner, Ms Garg connects the business law concepts with daily life analogies.

Simplification of business law subjects by us by no means imply “less concepts” or “less details or debates”, it just means we aim to master the ART OF MAKING THE COMPLEX SIMPLE. On the contrary, unlike other online courses, majority of our courses involve hours of research work by our close to 40 research assistants on multiple undiscussed questions.

Students describe the atmosphere in Ms Garg’s classroom as “warm”, “disciplined”, “engaging” and “encouraging”.

Join our journey to make the corporate law subjects and scholarship more accessible and easier to use and apply. Let us not allow pandemic affect our learning.
